**UC Blue Ash College
Dental Hygiene Clinic**

9555 Plainfield Rd.
Blue Ash, OH 45236-1096
(513)745-5630

Brightening Smiles for More Than 45 Years

Since 1967, the Dental Hygiene program at UC Blue Ash has been preparing well qualified and caring dental hygienists for employment throughout the region. Led by our nationally-recognized faculty, students are guided in the development of knowledge, skills and attitudes needed for positions of responsibility in the oral care system through a unique blend of laboratory, clinical and classroom experiences. This accredited two year program leads to an Associate of Applied Science Degree.

Our dental hygiene clinic is open to the public, enabling students and faculty to serve the community through dental evaluations and preventive treatment.

Support Our Students

Your participation in our clinic program gives our students the hands-on experience they need to advance their education, while giving you quality, affordable preventive care. Students are always looking for support, particularly from:

- New patients who have not had their teeth cleaned in several years
- Children: ages 3-8
- Adolescents: ages 9-15
- Patients with orthodontics (braces)
- Patients with partial/removable dental appliances
- Patients with full dentures

Clinic Services

Services will be performed by a dental hygiene student under the supervision of Registered Dental Hygienists and Dentists. Preventive treatment provided includes:

- Health History
(including Blood Pressure Screening)
- Oral Cancer Screening
- Periodontal Assessment
- Oral Hygiene Education
(including home care products)
- Radiographs (X-rays)
- Tooth Desensitization
- Local Anesthetic
- Oral Prophylaxis
(scaling, root planing and polishing)
- Fluoride Treatment
- Cleaning of dentures
- Smoking Cessation Education
- Nutritional Counseling

*We do **not** provide the following services: teeth whitening, tooth extractions, fillings, crowns, implants, dentures, partials or restorative work of any kind.

Clinic Fees

Sealants (up to age 18).....	\$5.00 (per tooth)
X-rays	\$10.00
Duplication of X-rays.....	\$10.00

***Fees are non-refundable.** All fees effective 8/1/2013.

*We accept credit cards and checks.

*Cash cannot be accepted.

*We cannot accept insurance.

What To Expect

It may take two or more appointments to ensure complete and thorough treatment. Each appointment may last two to four hours. The services rendered by our students are carefully observed and evaluated by faculty members, therefore treatment proceeds more slowly than in a private office.

Advancement of our students and successful treatment depends on your commitment and ability to keep all scheduled appointments.

In the event you must change or cancel an appointment, please give the clinic at least 24 hours advance notice. Due to limited appointment times available, we may be unable to reschedule missed or cancelled appointments.

Scheduling Information

Open:

August-April (by appointment only)

Morning Sessions:

Tuesdays and Thursdays

Afternoon Sessions:

Mondays and Wednesdays

To schedule an appointment, please contact the Office Manager at: (513)745-5630

It is necessary that patients seek additional care from a private dentist, since services performed by our students are limited to preventive treatment and do not replace regular dental care.
