The seminar is a “must do” for veterinary professionals, animal shelter, rescue, and advocacy group professionals and volunteers, and those working with animals one-on-one. Seminar highlights include decreasing stress animals experience when visiting facilities and use of positive behavioral modification techniques to calm fears and improve behavior at home and in the facility. All of these interventions can help keep pets within their homes, preventing relinquishment to shelters or rescues due to behavioral problems. Don’t miss this great opportunity to learn from the best.

Sunday, April 13, 2014 Schedule
